A
PROJECT REPORT
ON
Writing of "Simple Electrolysis".

SUBMITTED BY
Miss. Durgashri Dhanrale. (06).
Miss. Priti Kasbe. (15).
Mr. Vishal Kapse. (14).

First year diploma in Mechanical Engineering

Under the guidance of Prof.. S. M. Gage.

DEPARTMENT OF MECHANICAL ENGINEERING.
SRES, SANJIVANI K. B. P. POLYTECHNIC, KOPARGAON - 423603
MSBTE, MUMBAI.

ACKNOWLEDGEMENT.

I would like to express my special thanks of gratitude to Prof. S. M. Gage.

Who help me this golden opportunity to express and explore myself and improve my skills by performing this project secondary I would like to thanks our HOD of Mechanical Department, M. R. G. N Wattamwar Sir, for his kind help guidance and motivation. I would like to express facilities and at last but not the least. I would like to thanks our friends and co-members of this group who helped us in every possible way to complete this project successfully.

Miss. Priti Kasbe. (15).

Mr. Vishal Lapse . (14).

Diploma in Mechanical Engineering
Sanjivani K. B. P. Polytechnic,
Kopargaon.

Simple Electrolysis.

Figure of Electrolysis.

How to make Simple Electrolysis.

First of all collect the things to make Simple Electrolysis.

Things of name : Glass , water , salt , wire , small battery , 2 pencils and Chad of paper.

Procedure :

Take the water in the Glass and take of a spoon Salt and put in the Glass of water and mix the Salt in the water and take Chad paper then this Chad paper make 2 holes now then take 2 pencils and sharp them Both of side and that 2 pencils their is hole in the Chad paper put in side the pencils in them. After then the Chad paper and pencils put in the glass of water then take a small battery and wire joint to pencils and small battery. Then see pencils inside of the glass of water then we saw that in pencils down side we saw small small Bubles is known as Simple Electrolysis.
